ABOUT CAMBRIDGE BRASS

Cambridge Brass is one of North America's leading designers, manufacturers, and distributors of municipal waterworks products.

With over 100 years in the industry, Cambridge Brass continues to offer the highest quality and innovative designs. Our facility located in Cambridge, Ontario, Canada offers a full range of products to meet customers' needs including a large inventory of No-Lead brass products, especially commonly used items.

As the leader in No-Lead waterworks products with over 20 years experience in casting No-Lead products, Cambridge Brass continues to focus efforts to meet the changing needs of our industry for now and in the future.

Currently our facility incorporates foundry, machining and assembly under one roof which allows us to control quality, design and delivery as well as meet customer needs in a timely and efficient manner.

NO-LEAD. NO WORRIES.™
Engineered To Last a Lifetime!
